

Tasks and Assignments

Install IBM Cloud CLI

Date	12 October 2022
Student Name	Alex S
Project Name	Project -Skill and Job recommender application.

Step 1: Use a browser to access the official [ibm-cloud-cli-releases](#) GitHub repository, and select the installer of your OS to begin the download.

Step 2: In Linux, extract the package and run the `install` script.

Step 3: To verify, Run `ibmcloud login` in the terminal.

Step 4: Log on to your account using your credentials to verify.

Output:

```
Password> (base) alex@alex-Swift-SF315-41:~/alex/ibm/app$ ibmcloud login
API endpoint: https://cloud.ibm.com
Region: in-che
